Practice until you can play this song!

A simple song to play. You have to play this song in less than a few hours, unless you're 7 or 8 year old. Just watch the video 5 times, or more, then print the pdf score and take your guitar, and play it. Watch the video again if you have trouble playing it, but it should be very easy to play

Do not try to play songs from higher levels until you master this one!
