

MIDI FILES GUITAR LEVEL - 10

Mostly CHORDS, in this level you should be able to play pretty much any chord and be able to switch from one chord to another without any problems, except for chords like C13 or Bbmaj9 or D11 those are chords you use for jazz music, you'll see chords like that in higher levels.

When you start playing the song, write the date (It's very important), when you can play the song very good, at the right speed and you can play it with confidence, and without mistakes, at least 3 or 4 times in a row, you can say that you know how to play that song. Then write the date. If it's less than a month, GOOD!, get another song in the same level, and play all the songs. IF it's more than a month, PRACTICE MORE, A LOT MORE! (or get songs from the previews level.)

VERY IMPORTANT!

DO NOT TRY TO PLAY SONGS FROM THE NEXT LEVEL IF YOU TAKE MORE THAN A MONTH TO PLAY A SONG LIKE THESE!.
